CHAPTER 1. AUTHORITY, TITLE PURPOSE AND DEFINITIONS

Sec. 101 Authority

This Ordinance is enacted in accordance with 12 M.R.S.A. § 6671, as may be amended from time to time. The title of this Ordinance is the Harpswell Shellfish Ordinance.

Sec. 102 Purpose

The purpose of this Ordinance is as follows:

- 102.1 To regulate the harvesting of shellfish in the Town of Harpswell.
- 102.2 To provide management programs in Harpswell for the conservation of shellfish in a manner consistent with the production of a reasonable yield to shellfish harvesters.

Sec. 103 Conservation and Management of Shellfish Resources

It is hereby determined as follows:

- 103.1 The clam flats of the Town are a very valuable shellfish resource which is important to the local economy.
- 103.2 These flats are not an inexhaustible resource, and therefore, they must be prudently managed in order to remain viable.
- 103.3 As part of the management process it is deemed vitally necessary to restrict the taking of shellfish by limiting shellfish licenses; restrict the size and quantity of shellfish which may be harvested; and, take the other measures outlined in the Ordinance.

Sec. 104 Definitions

- 104.1 "Clam flats" mean the area between high and low water.
- 104.2 "Harvest" means to dig or take by hand implements only.
- 104.3 "Resident" means a person who has domiciled in the Town for at least six months next prior to the time his/her claim of residence is made.
- 104.4 "Non-resident" means a person who does not qualify as a resident.
- 104.5 "Shellfish" means soft shell clams (*Mya Arenaria*), and quahogs (*Mercenaria Mercenaria*).
- 104.6 "Municipal Shellfish Conservation Warden" means the law enforcement officer appointed by the Board of Selectmen to enforce this Ordinance.
- 104.7 "Lot" means the total number of soft shell clams in any bulk pile. Where soft shell clams are in a box, barrel or other container, the contents of each box, barrel, or other container constitutes a separate lot.
- 104.8 "Possession" means to have in one's custody or control, either personally or by another who is under one's control.
- 104.9 "Conservation Obligation" means reporting for and completing Conservation Time during two scheduled tide cycles per calendar year.
- 104.10 "Conservation Time" means projects approved by the Marine Resources Committee from time to time that serve to preserve and protect the Town's clam flats, such as reseedling the clam flats, identifying overboard discharge, failed septic systems and other non-point pollution source locations, and removing and properly disposing of trash and litter from the clam flats.

- 104.11 "Personal Use" means for consumption or use by oneself, by members of the immediate family or by invited guests.
- 104.12 "Suspension" means the temporary withdrawal of a license or privilege to obtain a license through the Harpswell Town Office.
- 104.13 "Adjudication" means formal, final pronouncement of a judgment in a court or administrative proceeding.

CHAPTER 2. MARINE RESOURCES COMMITTEE

Sec. 201 Marine Resources Committee

There is hereby established a Marine Resources Committee consisting of seven (7) members to be appointed by the Board of Selectmen. Each Committee member shall have been a resident of the Town for at least three years immediately preceding his/her appointment and shall continue as a resident during his/her term. The term of office of the members of the Committee shall be for three years and shall terminate on April 30 of the applicable year; except that of those members first appointed to serve beginning May 1, 2005, three shall be for a term of three years, three shall be for a term of two years and one shall be for a term of one year. Any Committee member with three consecutive unexcused absences from the regularly scheduled meetings may be replaced by the Board of Selectmen. Upon conviction for violation of any sections of the Harpswell Shellfish Ordinance, a standing member of the Committee will be subject to censure, suspension or any other lawful penalty determined to be appropriate by the Board of Selectmen. The Board of Selectmen shall appoint a person to fill a vacancy for the unexpired term. The Committee shall choose a Chairman, Vice Chairman, and Secretary. The Chairman shall preside at all meetings of the Committee. The Vice Chairman shall preside in the Chairman's absence; and the Secretary shall record and keep minutes of each meeting. A copy of the minutes of each meeting shall be submitted to the Town Clerk or his/her designee as soon as they are approved by the Committee.

Sec. 202 Powers and Duties of Committee

The Marine Resources Committee has the following powers and duties.

- 202.1 To administer and coordinate the shellfish conservation programs and any other duties required under this Ordinance.
- 202.2 To recommend to the Board of Selectmen how the money appropriated for shellfish conservation programs should be spent.
- 202.3 To administer and coordinate a survey of all clam flats to obtain and maintain current information on shellfish resources, including:
- 202.3.1 The determination of size frequency.
 - 202.3.2 The determination of growth rate.
 - 202.3.3 The estimation of the available standing crop.
 - 202.3.4 The estimation of the potential yield.
 - 202.3.5 The identification of sources of harmful pollution.

- 202.3.6 The identification of other resource problems, such as green crab predation and mussel competition.
- 202.3.7 To determine the current level of use of the shellfish resources.
- 202.3.8 To conduct a conservation program for Licenses as follows:
 - 202.3.8.1 The Marine Resources Committee shall, no less than annually, identify and approve those projects that will qualify as Conservation Time. Such list of Conservation Time shall be completed by the Marine Resources Committee and forwarded to the Town Clerk on or before January 15 of each year. The Marine Resources Committee shall, no less than annually, develop and approve a list of conservation dates and hours during which diggers can satisfy their Conservation Obligation. Such list of conservation dates shall be completed by the Marine Resources Committee and forwarded to the Town Clerk on or before January 15 of each year. Existing license holders and all applicants for a commercial license must sign up for two (2) conservation dates only. A maximum of twenty-five (25) people will be allowed to participate in each conservation date.
 - 202.3.8.2 At least one (1) member of the Marine Resources Committee or a qualified person designated by the Committee and approved by the Selectmen shall be present during each conservation time period and shall determine that each digger's Conservation Obligation has been fulfilled.
 - 202.3.8.3 The Marine Resources Committee shall maintain records of compliance with this program for each conservation date. The Committee member or his/her designee who leads the conservation activity shall fill out a 3-part receipt for each participant. A receipt shall be considered valid only if it contains the following items: the name of the participant; the date and time of the conservation activity; the type and location of the conservation activity; the legible signature of the issuing official; and the serial number preprinted on each part of the 3-part receipt. The Shellfish Conservation Warden shall be present for all conservation dates and shall be responsible for managing the attendance sheet and overseeing the distribution of each part of the 3-part receipt booklet. One part of the receipt shall be issued to the conservation participant; one part of the receipt shall be retained by the Shellfish Conservation Warden and filed with the Town Clerk's Office within two (2) weeks following the conservation date; and one part of the receipt shall be filed by the issuing Committee member or his/her designee with the permanent records of the Marine Resources Committee. Issuance of a commercial license is contingent upon satisfaction of the Conservation Obligation prior to

December 31 of the preceding year. The Marine Resources Committee is responsible for compiling and forwarding to the Town Clerk's Office an annual listing of all Conservation Time performed each calendar year on or before January 15 of the following year in preparation for the annual licensing process.

- 202.3.8.4 It shall be the responsibility of the Commercial Licensee to sign up for Conservation Time. Any person signing up must hold either a Harpswell Resident or Non-resident Commercial Shellfish License unless an unlicensed person wishes to voluntarily donate time which may enhance his/her chance of obtaining a Commercial License. The list will be available at the Town Clerk's Office during regular office hours and at regular Marine Resources Committee meetings. Pursuant to Section 202.3.8.1 above, said list shall be available by January 15 of each year.
- 202.4 To cooperate with the Department of Marine Resources in carrying on experimental shellfish programs.
- 202.5 To prepare and promulgate a shellfish conservation plan in cooperation with the Department of Marine Resources based on the results of the clam flat survey, incorporating recommended levels of harvesting on the various flats as delineated on maps prepared by the Committee consisting of area rotation, seeding, predator control, and the opening and closing of clam flats.
- 202.6 To collect harvest data documenting local values of shellfish resources.
- 202.7 To make an annual written report to the Town and Department of Marine Resources detailing funds available, expenditures made, harvest date results of all conservation and experimental programs, enforcement activities, and sources of pollution, predation, competition and other resource problems.

Sec. 203 Opening and Closing Clam Flats

The Board of Selectmen with the approval of the Commissioner of Marine Resources has the power to open and close clam flats. When information in the possession of the Marine Resources Committee indicated that a clam flat should be opened or closed, it shall immediately advise the Board of Selectmen. The Board of Selectmen shall call a public hearing on ten-days notice published in a newspaper having general circulation in the Town, stating the time, place, and subject matter of the hearing; and shall send a copy of the notice to the Department of Marine Resources. At the hearing, the Committee shall present evidence obtained from its surveys and other sources, and members of the public may present evidence in support or refutation of the evidence presented by the Committee.

After the hearing is closed, the Board of Selectmen shall make findings of fact on the relevant evidence presented. The Board of Selectmen shall then make a conclusion based on those findings of fact as to whether opening the flat as

requested is warranted by the recovery of the resource; or the freedom from predation, competition, or other resource problem.

If so, the Board of Selectmen, with the approval of the DMR area biologist, shall order the flat opened and shall set such time limitations and other harvesting conditions as are consistent with good conservation practice. If the request is to close the flat, the Board of Selectmen shall make a conclusion based on its findings of fact as to whether closing the flat is warranted by depletion of the shellfish; destruction of existing seed; or predation, competition, or other resource problem. If so, the Board of Selectmen, with the approval of the DMR area biologist, shall order the flat closed until further request for opening by the Committee. Any proposal for opening or closing the flats shall be approved by the Commissioner of Marine Resources prior to enactment.

CHAPTER 3. LICENSES AND FEES

Sec. 301 Licenses Defined

There are three types of licenses as follows:

- 301.1 **Resident Commercial Shellfish License.** This license entitles the Licensee to harvest any amount of shellfish from the tidal waters or clam flats of the Town where and when it is otherwise lawful to do so.
- 301.2 **Non-resident Commercial Shellfish License.** This license entitles the Licensee to harvest any amount of shellfish from the tidal waters or clam flats of the Town where and when it is otherwise lawful to do. Ten percent of the number of resident commercial shellfish licenses shall be reserved for non-resident commercial shellfish licenses.
- 301.3 **Resident Recreational Shellfish License.** This license is available to residents of the Town and entitles the holder to dig, take and possess no more than two pecks of soft-shell clams and two pecks of quahogs per day, for personal use. This license is not available to, or valid for, holders of a State of Maine Shellfish License. Use of the recreational license for the purposes of selling, trading or bartering is a violation of this Ordinance.
- 301.4 **Non-resident Recreational License.** This license is available to non-residents and entitles the holder to dig, take and possess no more than two pecks of soft-shell clams and two pecks of quahogs per day, for personal use. This license is not available to, or valid for, holders of a State of Maine Shellfish License. Use of the recreational shellfish license for the purposes of selling, trading or bartering is a violation of this Ordinance. Ten percent of the number of resident recreational shellfish licenses issued shall be reserved for non-resident recreational shellfish licenses.
 - 301.4.1 **Waiting List:** A waiting list for non-resident recreational license applicants shall be maintained by the Town Clerk. Any prospective applicants for non-resident recreational shellfish licenses who wish to have their names placed on the waiting list must, beginning on March 15 of each year, report to the Town Clerk's Office, in person, to have

their name placed on the waiting list. Proof of identification and place of residence, to the satisfaction of the Town Clerk, shall be provided by the applicant. Each name on the waiting list shall be assigned a separate number. Licensees will be selected by lottery conducted by the Town Clerk's Office beginning on April 1 of each year and continuing as non-resident recreational licenses become available. The lottery shall be conducted by placing all of the numbers corresponding to the names of applicants on the waiting list into a bin or hat and by then drawing a number from the bin or hat. Once a new licensee's name is selected, that applicant will be contacted by the Town Clerk's Office to pick up his/her license. The Town Clerk shall maintain a record of the date and time of actual or attempted contact with the selected applicant. If the applicant does not pick up his/her new license within 72 hours of the date and time of the earliest actual or attempted contact by the Town Clerk's Office, the same system shall be employed to draw another number from the lot and the same practice repeated to keep the number of non-resident recreational licenses equal to 10% of the number of resident recreational licenses.

- 301.5 **Lifetime Recreational License.** Any Harpswell Resident or Harpswell real estate owner who is age 65 or older may be issued a one-time license for the lifetime of the licensee. A licensee under this section is entitled to dig, take, and possess no more than two pecks of soft-shell clams and two pecks of quahogs per day, for personal use.

Sec. 302 **Fees**

The following fees will apply unless otherwise determined by the Selectmen.

- 302.1 **Resident Commercial Shellfish License \$200.00.** License fee not refundable if proven a non-resident. For residents 65 years or older who have such a license for at least the two preceding years, the license fee shall only be \$100.
- 302.2 **Non-resident Commercial Shellfish License \$400.000.** For non-residents 65 years or older who have such a license for at least the two preceding years, the license fee shall only be \$200.00.
- 302.3 **Resident Recreational Shellfish License \$10.00.** (License fees will be waived for residents 65 years or older for this category.)
- 302.4 **Non-resident Recreational Shellfish License.** Shall be the maximum fee allowed by the State; if none, then the fee shall be twice the fee for a Resident Recreational Shellfish License. (License fees will be waived for non-residents 65 years or older for this category.)

Sec. 303 **License Expiration Date**

All licenses expire at midnight March 31. Exception: Resident Recreational Age 65 or older lifetime license.

Sec. 304 **Qualifications of License**

- 304.1 An applicant for a Resident Commercial Shellfish License must be a resident of the Town of Harpswell as defined in Section 104.3 and whose prior shellfish license is not currently under suspension pursuant to this Ordinance.
- 304.2 An applicant for a Non-resident Commercial Shellfish License is any person who does not meet the residency requirements in Section 104.3 and whose prior shellfish license is not currently under suspension pursuant to this Ordinance.
- 304.3 An applicant for a Resident Recreational Shellfish License must be either a resident as defined in Section 104.3 or the owner of real estate within the Town of Harpswell and whose prior shellfish license is not currently under suspension pursuant to this Ordinance.
- 304.4 The place of residence of a licensed applicant as stated on any other license is not determinative of the applicant's true place of residence. Where necessary the applicant shall be required to produce evidence of his/her residence before issuing the license.

304.5 **Commercial Renewal License**

Applications for Resident Commercial Renewal Shellfish licenses and Non-resident Commercial Renewal Shellfish licenses shall be separated. Applicants for Resident Commercial Shellfish licenses must have held that category of license for the qualifying number of years. Applicants for Non-resident Commercial Shellfish licenses must have held that category of license for the qualifying number of years. Applicants for renewal licenses must have been licensed in the Town of Harpswell for at least two (2) of the preceding five (5) years, and must have satisfied their Conservation Obligation. An applicant who has failed to qualify as a resident in the preceding year is not eligible for a commercial renewal license. Reciprocal licenses from previous years do not qualify as commercial renewal licenses. Renewal licenses will be available during the last five (5) working days of March and will be limited to the number of licenses to be issued that year. In case the number of applicants exceeds the number of licenses available, licenses will be determined by the number of years in the preceding five (5) years, in decreasing order, a licensee has held a qualifying Commercial Shellfish license in the Town of Harpswell. If an additional reduction in the number of licenses is required, a seniority system based on the date of first licensure by the Town shall be employed in order to eliminate the most recently issued licenses until the required number of licenses is achieved. If multiple licenses have the same date of first licensure by the Town, a lottery shall be conducted by the Town Clerk to choose by lot only those few licenses that shall be eliminated. Nothing in Section 304.5 through Section 304.6.2 shall be interpreted to increase the available number of Non-resident Commercial licenses to more than ten percent of the available number of Resident Commercial licenses.

304.6 Commercial Non-Renewal License Criteria

Any license holder who does not fulfill all criteria set forth in Section 304.5 does not qualify for a renewal license.

A priority list will be maintained in the Town Clerk's Office as follows:

- 304.6.1 License holder has had a valid Harpswell Commercial license for at least one (1) year and satisfied his/her Conservation Obligation.
- 304.6.2 Any remaining commercial licenses will be put in a lottery, the time and date to be published prior to April first with priority given to those who have completed voluntary Conservation Time in the previous year. An individual must be present at the lottery in order to receive a license.
- 304.6.3 Subsequent to the license periods in 304.5 and 304.6, resident or non-resident licenses that have not yet been granted, shall be available to residents and non-residents on a first come, first served basis.
- 304.7 Any license issued under this Ordinance is subject to the partial or total closing of the coastal waters or flats.

Sec. 305 Application

Applicants must annually submit a completed application form to the Town Clerk by the 15th day of February. If any portion of the application form is not filled out in its entirety, the application will not be considered. Applicants submitting applications after February 15 are subject to a \$100 late fee. No application will be accepted after the close of business on March 1. If a prospective applicant fails to submit an application by the March 1 deadline, such person shall not be licensed for that year unless through the "non-renewal" procedure set forth in Section 304.6 of this Ordinance; if a license is issued to such late applicant under Section 304.6 of the Ordinance, the applicant shall pay a \$200 late fee.

The annual application will be in the form of an affidavit and will include the applicant's name, current address, period of residence, date and place of birth, height, weight and other such necessary information as the Town Clerk may require. There must also be included the physical location of residence. The application must be signed by the applicant and acknowledged by the Town Clerk.

The completed application will be reviewed by the Shellfish Conservation Warden(s) for accuracy and the applicant shall be notified by first class and certified mail of any discrepancies found. The applicant will have 10 business days from receipt of notice to respond to any discrepancies that may have been found. After midnight of the 10th day, if the applicant does not respond to a Shellfish Conservation Warden in writing regarding the notice received, the application will be deemed denied. If the license has already been issued before such discrepancy is found, the Selectmen shall suspend or revoke the license upon notice and hearing (provided that a hearing shall be held only if

requested by the licensee) and until the discrepancy is resolved. If the discrepancy is not resolved in the licensee's favor, the license may be revoked pursuant to Section 311.

Any person applying for (or holding) a shellfish license under the Ordinance shall notify the Town Clerk within 10 days of an address change, regardless of whether the address change is also a change of residency.

Sec. 306 **Possession of License**

- 306.1 **Exhibition on demand.** When any person is engaged in any activity which is licensed under this Ordinance, he shall, on request of a Shellfish Conservation Warden or other authorized person, exhibit a license.
- 306.2 **Prima facie evidence.** A failure to exhibit a license within a reasonable time, when requested, shall be prima facie evidence that the person is not licensed.

Sec. 307 **Search, Consent to Inspection; Violation**

- 307.1 **Search Powers.** Any Shellfish Conservation Warden, in uniform, may search without a warrant and examine any watercraft, aircraft, conveyance, vehicle, box, bag, locker, trap, crate or other receptacle or container for any marine organism when he has probable cause to believe that any marine organism taken, possessed or transported contrary to law is concealed thereon or therein.
- 307.2 **Consent to Inspection.** Any person who signs an application for a license or receives a license under this part has a duty to submit to inspection and search for violations related to the licensed activities by a Shellfish Conservation Warden under the following conditions.
- A. Watercraft or vehicles and the equipment located on watercraft or vehicles which are used primarily in a trade or business requiring a license under this part may be searched or inspected at any time.
 - B. Any other location where activities subject to this part are conducted may be inspected or searched during the hours when those activities occur.
 - C. A location specified in subparagraph B above may be inspected at any time if a Shellfish Conservation Warden has a reasonable suspicion of a violation of this part.
 - D. No residential dwelling may be searched without a search warrant unless otherwise allowed by law.

- 307.3 **Seizure of Evidence.** Any person who signs an application for a license or received a license under this part has a duty to permit seizure of evidence of a violation of this Ordinance found during an inspection or search.
- 307.4 **Refusal.** Refusal to permit inspection or seizure shall be a basis for suspension of any license under this Ordinance.

Sec. 308 Limitation of Diggers

The shellfish resources are limited. A commercial or recreational digger can be expected to harvest a certain volume of shellfish per year; therefore, the number of diggers must be controlled to preserve the shellfish resource. The number of available Shellfish licenses of each type may vary from year to year according to the finding and estimates of the Marine Resources Committee and the DMR area biologist based on data concerning the resource capabilities and management requirement consistent with proper resource utilization as determined by surveys conducted pursuant to Section 202 of this Ordinance. The following procedures will be followed to control Shellfish License availability:

- 308.1 Prior to the first business day in March the Marine Resources Committee in conjunction with the DMR area biologist will establish the number of commercial and non-commercial Shellfish Licenses to be made available.
- 308.2 The Marine Resources Committee will notify the Town Clerk in writing prior to the first business day in March of the number of Shellfish Licenses, by type, to be made available for issue. No shellfish Licenses may be reserved.
- 308.3 After June 1 of each year, the commercial licenses shall be available to residents and non-residents on a first-come, first-served basis up to the total number approved by the Marine Resources Committee.
- 308.4 Commercial licenses may be returned to the Town voluntarily with no refund, and reissued to any other person at the current fee according to the priorities established in this section on a first-come, first-served list maintained at the Town Clerk's Office.

Sec. 309 Misrepresentation

It shall be unlawful and a violation of this Ordinance for any person to falsify, or give false information in connection with a Shellfish License application. In addition to any criminal penalties which may result from a violation of this Ordinance, the Shellfish License granted to any person who gives false information on a Shellfish License application shall be void after notice and hearing by the Board of Selectmen.

Sec. 310 Suspension

- 310.1 In the event any Shellfish Licensee has two Adjudications, within a thirty-six month period, for a violation of either this Ordinance and/or State law regarding shellfish regulation, 12 M.R.S.A. §§ 6601-6681, as may be amended from time to time, that have taken place within the territorial limits of the Town of Harpswell, then the licensee shall receive a notice of

suspension of the license for thirty (30) days from the Board of Selectmen or its designee. Any subsequent Adjudication will result in a notice of suspension of the license for ninety (90) days. *Exceptions:* Licensee may not be suspended or revoked for adjudications of Section 306 of this Ordinance.

310.2 A resident recreational licensee whose Shellfish License has been suspended or revoked pursuant to this Ordinance may reapply for a recreational license only after the suspension or revocation period has expired.

310.2.1 A non-resident recreational licensee whose license has been suspended or revoked pursuant to this Ordinance may not reapply for a recreational license in Harpswell for five (5) years. Whenever a non-resident recreational license is revoked, that license shall be offered to the next person on the waiting list maintained by the Town Clerk's Office pursuant to this Ordinance.

310.3 The Board of Selectmen or its designee shall send a notice of suspension via first class and certified mail to the licensee upon learning the License Holder's State of Maine Department of Marine Resources License is suspended. This municipal license suspension shall remain in effect until such time as the License Holder's State of Maine Department of Marine Resources License is reinstated.

310.4 The notice of suspension or revocation shall be sent to the Licensee's last known address as recorded at the Town Clerk's Office. The suspension or revocation shall become effective if the appeal period as indicated in Section 310.5 of this Ordinance expires or after the Board of Selectmen's decision upholding the suspension or revocation is announced. If the licensee does not sign for the certified mail notice, the Board of Selectmen may appoint a Law Enforcement Officer to serve a copy of the notice on the licensee.

310.5 Any Licensee who receives notification of a suspension or revocation pursuant to this Ordinance shall be entitled to a hearing before the Board of Selectmen upon filing of a written Request for Hearing within seven (7) days of receipt of notification.

Sec. 311 Revocation

311.1 Any License that has been suspended pursuant to this Ordinance for at least 210 consecutive days, upon recommendation of the Marine Resources Committee, may be revoked by the Board of Selectmen. A license may also be revoked if it is discovered that the licensee has provided false information on the application. Licensee shall be notified pursuant to Section 310.4 and may request a hearing before the Board of Selectmen as set forth in Section 310.5.

CHAPTER 4. ENFORCEMENT

Sec. 401 Harvesting Prohibited

A person shall not harvest, take or possess shellfish from the tidal waters or clam flats of the Town of Harpswell without first obtaining a Shellfish License from the Town Office.

Sec. 402 **Clam Size and Possession of Harvest**

A person shall not possess soft shell clams that are less than two (2) inches in the largest diameter to the amount of more than 10% of any lot.

402.1 Quahog size restrictions

It shall be unlawful to take, possess, ship, transport, buy or sell quahogs that are less than one inch in thickness as measured across the hinge width. Hinge width: Hinge width means the thickness of a quahog as measured between the convex apex of the right shell and the convex apex of the left shell. Exception: Quahog size restriction will apply unless these quahogs are properly identified as raised by means of aquaculture.

Sec. 403 **Method of Determining Shellfish Size Tolerance**

The tolerance of 10% must be determined by a numerical count of not less than one (1) nor more than four (4) pecks taken at random from various parts of the lot.

403.1 If the entire lot contains less than one (1) peck, the tolerance must be determined by a numerical count of the entire lot.

Sec. 404 **Stopping for Inspection**

It shall be unlawful for the operator of a motor vehicle, boat, vessel, or conveyance of any kind, or any person:

404.1 **Stopping:** To fail or refuse to stop immediately upon request of any Shellfish Conservation Warden in uniform.

404.2 **Remaining Stopped:** After a person has stopped, to fail to remain stopped until the Shellfish Conservation Warden has released them.

404.3 **Standing By:** To fail to refuse to stand by immediately, for inspection upon request of any Shellfish Conservation Warden in uniform

404.4 **Throwing or Dumping Items:** Who has been requested or signaled to stop by any Shellfish Conservation Warden in uniform, to throw, dump or destroy any type of marine resource, from any type of container, pail, barrel, or expose to the water or mud, before the Shellfish Conservation Warden has inspected the product.

Sec. 405 **Conservation Area**

405.1 **Taking From A Conservation Area:** It shall be unlawful to take shellfish from any area closed by regulation or to possess, ship, transport, or sell shellfish taken.

405.2 **Washing or Holding In A Conservation Area:** It shall be unlawful to wash, hold or keep shellfish in any area closed by regulation or to possess, ship, transport, or sell shellfish so washed, held or kept.

Sec. 406 **Enforcement**

The Ordinance shall be enforced by a law enforcement officer appointed by the Board of Selectmen to be known as the Municipal Shellfish Conservation Warden.

Sec. 407 **Penalty**

A person who violates this Ordinance shall be punished as provided in Title 12 M.R.S.A. § 6671, as may be amended from time to time.

Sec. 408 **Aiding and Abetting**

A harvester holding a commercial license who knowingly helps, assists or facilitates the harvest of shellfish in violation of this Ordinance shall be subject to prosecution for the same violations and penalties as the person the licensee has assisted.

Sec. 409 **Appeals**

Except as otherwise provided herein, any decision made by the Shellfish Conservation Warden shall stand unless appeal is made in writing to the Board of Selectmen within seven (7) days of the date of the decision.

CHAPTER 5. SEPARABILITY, DURATION AND REPEAL

Sec. 501 **Separability**

If any provision of this Ordinance is declared to be invalid, that declaration does not affect the remainder of the Ordinance.

Sec. 502 **Duration**

This Ordinance and any amendments thereto shall remain in effect until Repealed by the Town or rescinded by the Commissioner of Marine Resources.

Sec. 503 **Repeal**

Any ordinance regulating the harvesting or conservation of shellfish in the Town that is inconsistent with this Ordinance is hereby repealed.
